Omar Alqudah  
Technical support Engineer  
Al-Itqan Control System  
P.O. Box 4277  
Amman 11953, Jordan

Dear Omar

**RE: Completion of the Pheonix, Fume Cupboard and Hazardous Extract Systems**

We take this opportunity to thank you for your commitment to the project and to the final completion of the integration works between Air Cuity, BMS and Pheonix systems. Without your expertise this could not have been possible and we would look to propose any opportunity that we can in using you and your company in going forward into the operation and maintenance phases. This has already been discussed with your management and we are hopeful of a suitable outcome.

In the meantime we consider the relationship between the client and your organization as productive and any requirements that we would desire I hope that your organization will be capable of continuing the support that you have provided for the contractor during the installation phases.

Yours Sincerely

**Alan Caldwell**
